## Education

**University of Toronto, St. George**

**2018 – 2020**

*Bachelor of Science in Computer Science and Statistics*

*Toronto, ON*

## Technical Skills

**Languages:** Javascript, Python, HTML/CSS, SQL, Java, C, PHP

**Developer Tools:** VS Code, Eclipse, Android Studio, AWS, Heroku, Postman

**Technologies/Frameworks:** React, React Native, Redux, Angular, Material-UI, Docker, JUnit, Chai, Mocha

## Experience

**Q2 Management Inc.**

**July 2020 - Present**

*Fullstack Web Developer*

*Newmarket, ON*

- Migrated legacy company websites built using Flash and php to modern web apps using React and Nodejs. Providing our customers, such as Volkswagen, Tesla, and Toyota, a better user experience when placing orders.
- Added a feature to the employee scheduler Angular website, where plant managers could assign shifts to employees.
- Reduced site load times up to 70% by creating a cache table. By developing a background script that updates this cache table by joining multiple large tables into 1 table.
- Added a feature to the data entry Android app, where inspectors can record when taking breaks and signing off. Allowing plant supervisors to better keep track of inspectors and their progress.
- Acted as a mentor to new employees, giving them guidance with some tasks and worked together on larger features.

**Univeristy of Toronto, Woodsworth College**

**October 2019 - February 2020**

*Website Manager*

*Toronto, ON*

- Kept the college website up to date with the latest information and promoted upcoming events.

**University of Toronto, OISE**

**Summer 2018**

*IT help desk*

*Toronto, ON*

- Resolved IT issues by closing tickets quickly and assisting students with the computer lab.
- In charge of front desk communications between faculty, students and the IT staff.

**Bell Technical Solutions(BTS)**

**Summer 2017**

*Fiber Technician*

*Scarborough, ON*

- Installed a fiber optic connection from the junction box to the customer home.
- Duties ranged from driving a van, carrying and climbing a 24 ft. ladder to setting up customer Wifi, TV box and phone.

## Projects

**A matter of mind** | *Nodejs, Bootstrap*

- Developed a site for a nonprofit org as a school team project where first responders suffering from PTSD can connect with professional help.

**Programming Language Interpreter** | *Racket, Haskell*

- Developed an interpreter using functional programming for a school project.

**Local Library** | *Nodejs, MongoDB*

- A personal project where users can record and borrow books from a shared library.

**Farsi language learner** | *Java, Android Studio*

- Developed an Android app with writings, sounds, and pictures of common Farsi words.

## Volunteer/Extracurricular Experience

**Afghan Canadian Response, Costi.org**

**August 2021 - Present**

*Community outreach volunteer*

- Assisted in translation, as I speak/read Farsi, and also acted as an english instructor for a class of Afghans.
- Assisted in a clothing donation drive for the newly arriving Afghan refugees in the GTA.

**Afghan Student Association @UofT**

**September 2018 – February 2020**

*Assistant to the President*

- Organized student run events such as an Afghan arts night, Attan dance night and board game night.
