Experience

Xe.com

11/2021 - Present

Software Developer

Newmarket, ON

- Collaborated with senior consultants (developers, designers, UX designers) and project/product managers in a small, agile team building responsive, cross-browser compatible, and scalable web apps. Daily stand-up. Peer reviewing PR. Involved in front-end & back-end & QA. Took initiative in writing/updating docs and comments. (Figma, Jira, Gitlab, Postman, AWS)
- Redesigned the corporate facing registration website, resulting in an increase of business customer signups by 50%, and automated the business customer onboarding process. Worked with the data science team, to ensure analytics from Amplitude, Google Tag Manager and Segment were tracking customers accurately. (Vue v2.x, ASP.NET Core 5.0, C#).

Q2 Management Inc.

1 year 3 months. 07/2020 - 10/2021

Full Stack Developer

Newmarket, ON

- Created and renovated the entire back-end/front-end of customer-facing website months ahead of schedule. Additionally designed and developed an admin view(React, Express.js, HTML/CSS/JS, REST API).
- Designed and added a feature to the internal website, where managers can assign shifts to employees (Angular v2+, Typescript, PHP).
- Designed and added a feature to the punch clock app, where employees can track their breaks (Java, Android Studio, PHP).
- Created a cache table of the most joined tables, reducing site load times up to 70% (MySQL, Javascript, Node.js).
- Trained and mentored other programmers in programming methodologies and best practices.

Univeristy of Toronto, Woodsworth College
